

## **YOUR R&D FINANCING SPECIALIST...**

**The further development of our economy is based on innovations. They are essential for growth and employment. New products and processes need measures for their realization in every development phase.**

In the initial stage of every original development project there is the search for the best ways of financing. The experts of Spitzmüller AG ascertain the optimal way to finance your forward-looking projects and point out options within different subsidies & funding programmes.

Spitzmüller AG supports the growth process of small and medium-sized enterprises (SMEs) by exclusively **success-related** financing & innovation consultation, including non-returnable grants, loans at reduced interest rates and equity capital for the financing of product & process developments.

The service of Spitzmüller AG includes the following work contents:

- **Before Authorization: Phase of Request**

1. technical and promotion-related evaluation of the idea
2. selection of promotional programmes
3. search for partners
4. idea sketch
5. amendment of the idea sketch
6. specification of the costs and inputs
7. complete elaboration of all documents for the request
8. handling of additional demands

The pass rate of requests submitted by Spitzmüller AG is > 90 %.

- **After Authorization: Project Controlling**

1. checking the notice of approval
2. detailed planning
3. quarterly requests for payment
4. half-yearly reports
5. annual interim protocols
6. project meetings
7. reconciliation within the project
8. final report
9. project controlling & documentation
10. checking with regional commission

As a technical business consultancy, Spitzmüller AG, which is run by its owner, has been a reliable partner for innovative and forward-looking companies in the field of key technologies for over 20 years. Since 1983, more than 6,000 projects with a total amount of over 5 billion Euros have been settled.
